I am an MCA student interested in backend web development. I have built academic and personal projects using backend technologies and databases, gaining hands-on experience in server-side logic, data handling, and application workflows. I am looking for an entry-level role where I can apply my backend skills, learn industry best practices, and contribute to building reliable and scalable applications.

Education:

Master of Computer Applications (MCA)   2024-2026
Atmiya University , Rajkot
Bachelor of Computer Applications (BCA)   2021-2024
Atmiya University , Rajkot
Grade : 8.43 CGPA
HSC (GSEB)   2020-2021
Rosary School , Rajkot
Grade : 78.00 %
SSC (GSEB)   2018-2019
Rosary School , Rajkot
Grade : 80.00%

Technical Skills:

Programming & Backend: PHP , Python , Java
Web Development: HTML, CSS, JavaScript
Database: MySQL, MongoDB,
Frameworks & Platforms: Laravel
Concepts: Object-Oriented Programming (OOP), MVC Architecture,
Developer Tools: VS Code, Git/GitHub , XAMPP

Projects:

1. COVID Vaccine Registration System:
   Tech Stack: PHP, MySQL, HTML, CSS
- Built a web-based vaccination registration system with user and admin roles.
- Implemented server-side validation and secure form handling.
- Designed and managed a structured MySQL database for registration records.

2. Brick Breaker Game:
   Tech Stack: Java (Swing, AWT)
- Developed a desktop-based Brick Breaker game using Java Swing and AWT.
- Implemented core game mechanics including collision detection, scoring, and keyboard controls.
- Designed multiple brick layouts to enhance gameplay experience.

Soft Skills:

analytical thinking, problem-solving, and collaboration in team projects.
